

Tomokazu Komiya

Every English-language Pokemon TCG card illustrated by Tomokazu Komiya

Komiya has illustrated cards since 1999 (Japanese Expansion Sheet 1; first English appearance in Neo Genesis). This checklist covers all English-language printings credited to him in the [pokemontcg.io](#) database. Bulbapedia's broader category lists ~267 entries including Japanese-only sets (Vending, VS, Mega Evolution) and a handful of disputed/composite credits; those are intentionally excluded.

252 cards across 94 sets

How to read this checklist

- ☐ Empty box: variant exists, not yet collected. Fill in when you have it.
- Em-dash: this variant does NOT exist for this card (e.g., no reverse holo printing).
- Variant columns per set reflect only the printings that exist for that release era.

Source: pokemontcg.io API (cached 2026-05-25). Komiya has no co-illustrator credits in the API; every entry is solo.
Two cards have empty artist field in the API but are attributed to Komiya by Bulbapedia and have been manually included: Impidimp (Stellar Crown 94) and Morelull (Surging Sparks 8).
Pikachu V-UNION (SWSH 139-142) was investigated and confirmed NOT a Komiya credit (illustrators: 5ban Graphics, Taira Akitsu, Hitoshi Ariga, Mitsuhiro Arita).
Variant columns per set reflect the printings that actually exist for that release era.
Cosmos-holo, deck-exclusive non-holo, and stamped-promo variants cross-referenced against PokemonTCG_EmptyChecklist_v11.0.xlsm; first-pass coverage only (8 cards updated). Older Komiya cards likely have additional cosmos-holo blister reprints not yet catalogued here.
